... could result in ... the spooky cottage that kept its owners awake before they fled was once the scene of death and terror.

British Museum partly closes after ex-employee's alleged IT attack

Lanre Bakare
Arts and culture correspondent

The British Museum was forced to partly close yesterday after its IT infrastructure was allegedly attacked by a former employee.

The contractor, who was recently dismissed, returned and shut down several systems including its ticketing platform, the museum said.

▲ The incident affected the ticketing system used for temporary exhibitions
